

English

Persuasive writing

Children will look at a variety of persuasive texts and analyse the different techniques that these texts use to persuade. Children will then create their own persuasive text using the skills that we have studied.

Communicative Writing

Children will explore different types of writing used to communicate. They will look at the benefits of the different types of writing and their features.

Maths

Statistics

Children will learn to construct and interpret simple tally charts, pictograms, block diagrams and tables. Children will be able to ask and answer simple questions about objects in each category as well as asking and answering questions that require them to total and compare data.

Measurement: Capacity and Temperature

We will be learning to choose the appropriate units to estimate and measure temperature and capacity. Children will also learn to compare and order different capacities and temperatures.

Come and See

Pentecost

Reconciliation

Year 2
Summer 1

Science

The Apprentice Gardener

Children are introduced to growing plants from bulbs and from seeds, learning the sequence of germination, and comparing and contrasting the requirements of germinating seeds with those of mature plants to maintain healthy growth.

Topic

Besides the seaside

This Beside the Seaside unit will teach children about the geographical features of the seaside, both human and physical. Children will learn about seaside environments; finding out where they are located in the United Kingdom and seaside resorts nearest their own locality.

Computing

Code-tastic

This unit gives children a practical understanding of how computer programs actually run, how a computer follows a sequence of instructions and what to do when a program goes wrong.

PE

Our PE days will be Monday and Thursday. Please make sure that your child has a school PE kits on these days.
