

Maths

Position and Direction

Number and Place Value

Comparing Measures

This term, we will begin by looking at positions and directions. The children will be looking at using left, right, forwards and backwards. They will also be using whole, half, quarter and three quarter turns.

Following this, we will be looking at ordering and comparing measures. This will include measuring and recording lengths, heights, weights and time before comparison.

RE

Holidays and Holydays

This term, the children will be looking at the importance of holy days within our school calendar. There will be a focus on the Feast of Pentecost and the children will discuss the significance of the Holy Spirit. They will discuss the different representations of the Holy Spirit and how to share this message with others in school.

English

Stories with fantasy settings

Information Texts

This term, we will be looking at stories with fantasy settings. We will discuss what a fantasy setting is, and how it can impact on a story's events. We will then identify the key features of a story with a fantasy setting before writing our own example.

Following this, we will look at information texts. We will compare the structure, presentation and grammar to fictional stories before writing our own information text about our school.

Year One

Summer Term 1

Topic

Seasides

During this topic, we will be looking at the physical features of different seaside locations around the UK. We will be looking at their physical and man-made features and how they have developed over time.

Computing

We are all connected.

We will be learning about how to use the internet to search for information safely. The children will use information they have researched themselves in order to make an e-book on i-pads.

PE will be on a **Tuesday PM and Friday AM.**

Football

This term we will be looking at improving our balance and co-ordination through controlling, passing and moving with footballs. We will be playing different ball based games.
