Home Learning Update

Dear Parents/Carers,

I hope this communication finds you well during these challenging times and that you are all managing to adapt.

Following the recent text alert sent. I am pleased to share with you the next phase and systems for accessing Home Learning Resources.

Accessing Resources through the school website

Updated weekly time tables and resources are available for each year group through the 'Home Learning Support' tab at the top of our website.

This takes us up to the 22nd May half term and future arrangements around this will be reviewed after the next government announcements.

Please note if you are accessing these resources they are in a weekly order, though you do have flexibility around when you use them.

If accessing on a smart device and not a computer, you will need to click on the drop down arrow next to Home Learning in order to see the resources.

Some of the daily resources are accessed through hyperlinks on the weekly timetables too.

Accessing Resources without internet access

For people without internet access or appropriate devices, paper packs can be collected from myself or Mrs Dobson at school on **Tuesdays** and **Thursdays** during normal school hours.

If you contact school in advance we could leave resources for pick ups on other days too.

Further Resources

As you know school has already tried to guide you to on line resource sites through our Facebook page and website and we urge you to continue to use these too.

Follow us on Facebook (St Luke's Catholic Primary School) for latest updates. Our page is easily identified by the school logo on the top of this letter.

You can also access the Facebook link through our school website without the need for a Facebook account at www.stluke.knowsley.sch.uk

Communication and support for parents from school regarding Home Learning

lockdown@stluke.knowsley.sch.uk is the new e mail account set up for parents who may need advice or have questions about their child's home learning. Please use this account to communicate about your child's work if needed. **Any other communications should still be through the usual school e mail or telephone.**

Communications will be filtered through this email account and sent to teachers. You will receive responses through this too. **Please note - School does not respond to questions through our Facebook account.**

I hope this information is clear and that you find the resources and plans useful.

Yours Sincerely
Mr A Crist
