

St Luke's Knowledge Organiser

Reception UTW (Natural world) – Living things – Animals

What I should already know

Some animals live in cold habitats.

Some animals hatch from eggs.

Working Scientifically

- ◆ Explore animals that hibernate during the Winter
- ◆ Identify British animals
 - ⇒ Hibernation
 - ⇒ Migration
- ◆ Explore arctic animals, name and identify key features:
 - ⇒ Habitat
 - ⇒ Mobility
 - ⇒ Babies

Sticky knowledge

Hibernation is a way some animals deal with the harshness of winter.

Animals that hibernate curl up in a safe place and stay there until winter ends.

A nocturnal animal is an animal that sleeps during the day and is awake during the night.

Animals who migrate go back and forth between summer and winter homes.

Vocabulary

Hibernate

Habitat

Migrate
