

## DT

## Boats

## Reception

What I should already know

- A boat is a vehicle used to travel on water.

Technical skills

- Talk about ideas through sentences.
- Making observations.
- Drawing pictures.
- Use junk equipment to construct a boat.
- How to cut.

Sticky Knowledge

A waterproof material is a material that does not let water pass through it.

When an object floats it stays on top of the water.

When an object sinks it goes underneath the water.
