

# Art

# Abstract shape

# Year 3

## What I should already know

- Key questions and metacognition strategies will continue to be used to encourage pupils to recognise the factors that influence their own performance and the different approaches they can use for their learning. These will include setting goals, formative planning, monitoring and controlling learning and assessing the results and strategies used.
- Children will be able to construct with paper.
- They will know that three dimensional art is called sculpture.

## Vocabulary

Sculptor	An artist who makes sculptures
Structure	Parts arranged in a particular way, like a cardboard model

Negative space

Positive space

## Sticky Knowledge

Using light and dark colours next to each other creates contrast.

Three dimensional forms are either organic (natural) or geometric (mathematical shapes, like a cube).

Organic forms can be abstract.

Negative shapes show the space around and between objects.

Artists can focus on shapes when making abstract art.

## Technical Knowledge and skills

- Confidently use of a range of materials and tools, selecting and using these appropriately with more independence.
- Use hands and tools confidently to cut, shape and join materials for a purpose.
