

## Sequenced Objectives

## Living things and their habitats - Biology

Lesson	Objective/s
Pre learning	<ul> <li>Review previous knowledge.</li> <li>Mind map of current knowledge – this is to be updated at the end of each lesson with new knowledge.</li> <li>Look at new knowledge organiser</li> </ul>
Lesson 1	<ul> <li>Explore and compare the differences between things that are living, dead, and things that have never been alive.</li> <li>Answer scientific questions</li> </ul>
Lesson 2	<ul> <li>To identify and name a variety of plants and animals in their habitats</li> <li>Identify and classify</li> </ul>
Lesson 3	<ul> <li>To identify and name a variety of plants and animals in their habitats, including microhabitats</li> <li>Use information I have gathered to answer a question.</li> </ul>
Lesson 4	<ul> <li>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants</li> </ul>
Lesson 5	<ul> <li>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other by considering the adaptations of animals, and how living things in a habitat depend on each other.</li> </ul>
Lesson 6	Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food
