

DT      Structures – Boats      Reception

What I should already know

- A boat is a vehicle used to travel on water.

Technical skills

Design:

- Drawing pictures.

Make:

- Using junk equipment to construct a boat.
- Understanding how to cut.

Evaluate:

- Talk about ideas through sentences.
- Making observations.

Sticky Knowledge

- A waterproof material is a material that does not let water pass through.
- When an object floats, it stays on top of the water.
- When an object sinks, it goes underneath the water.

The RNLI is a group of people who help keep people safe at the beach and in the sea. They use boats and lifesaving equipment to rescue people who are in trouble in the water.
