

DT

Seasonal Project – Autumn: Hibernation boxes

Reception

What I should already know

- Different types of animals.
- The different seasons are Autumn, Spring, Summer and Winter.

Sticky Knowledge

- In the Autumn the weather changes.
- Hibernation is when an animal rests over the winter.
- Animals that hibernate need to find somewhere safe to rest.

Technical Skills

- Describe what you can hear, see, feel whilst outside.
- Making observations.
- Drawing pictures.
- Creating and using different natural materials.

Chris Packham is a person who looks after animals and learns how they live in nature.

He helps people understand where animals sleep and how they stay safe and warm.
