

## Year 2 - Autumn 2 – Code a story

### What I should already know

- I can follow a simple algorithm and create a simple sequence algorithm using symbols that solve a problem.
- I can create algorithms that can be turned into a program using a robot or digital device.
- I can independently debug simple sequence errors in a program.
- I can use logical reasoning to predict the outcome of simple programs.
- I can use technology to create and present my ideas.
- I can organise and store my digital work..

### Vocabulary

Repeat  
Program  
Loops  
Code  
Debug  
Password  
Username  
Digital Book  
Code

### Sticky Knowledge and skills

- Sign in means using my personal details to access my digital information.
- An algorithm is a sequence of commands to carry out specific tasks.
- Debugging fixes errors in a computer program
- A sequence of instructions can create a story
