

## Year 2 - Spring 2 – Making games

# What I should

## How to follow a simple algorithm and create a simple sequence algorithm?

## How to use logical reasoning to predict the outcome of simple programs

## How to save and edit work

# Vocabulary

## Logical reasoning

## Algorithm

# Command program

# Sticky Knowledge and skills

To be able to use design and formatting techniques to enhance digital work.

A command block is part of a program

Logical reasoning is having a guess with a reason behind it.

An algorithm is a sequence of events.

## Debugging is the fixing of errors
